

Art Enrichment Opportunities

Art Enrichment classes are not only SO much fun, but educational as well. They make for a great “field trip” opportunity BROUGHT TO YOU at your location by a qualified and State Certified Art Teacher.

Why Choose an Art Project for your activity?

Our lessons not only engage kids, but they meet Oklahoma State Art Standards and ignite their imaginations. Plus, students walk away feeling successful with their artwork. Artsy Rose coming to you saves your business the hassle and expense of traveling off site. We do all the set-up, teaching and clean up. This makes for a stress-free event.

How Do We Get Started?

You can call or email. Have some dates and times in mind. Please allow 1 hour to create and an additional thirty minutes total for set up and clean up. Depending on number of students we can divide the class by ages to create appropriate projects. Once the event is booked, we will collect a \$100 deposit. This locks in your date and time on our calendar. This will be deducted from the total amount due after your event is complete.

Here are a few of our art activity examples you can choose from:
